INDEX

A

Accountant's Report 8
Air-Borne Micro-Organisms, Determining and Reducing the Concentration of, by MATTHEW LUCKIESH and A. H. TAYLOR 191
Discussion 202
Air Conditioned Offices, Comfort Reactions of Workers During Occupancy of, by FRANK B. ROWLEY, RICHARD C. JORDAN, and WARREN E. SNYDER 357
Discussion 364
Air Flow at Suction Openings, Nature of, by ALLEN D. BRANDT, RUSSELL J. STEFFY, and RICHARD G. HUEBSCHER 55
Discussion 69
Air Sterilization, Triethylene Glycol Vapor Distribution for, by EDWARD BIGG, B. H. JENNINGS, and F. C. W. OLSON 397
Discussion 407
Amendments to Constitution and By-Laws 18
ANDERSON, W. T., JR., Discussion on Triethylene Glycol Vapor Distribution for Air Sterilization 408
ANNUAL MEETING 1947, FIFTY THIRD (Cleveland, Ohio) 1
ARNOLD, R. L., Discussions on Comfort Reactions of Workers During Occupancy of Air Conditioned Offices 368
A Method for Improving Effective Temperature Index 322
AVERY, LESTER T., Discussion on Methods Used in Determining the Health Hazards Arising from the Inhalation of Various Chemicals 125

B

BEDFORD, THOMAS, Discussion on A Method for Improving the Effective Temperature Index 315
BEHNKE, A. R., Discussion on Minimal Replenishment Air Required for Living Spaces 153
BIGG, EDWARD, M.D., B. H. JENNINGS, and F. C. W. OLSON, Triethylene Glycol Vapor Distribution for Air Sterilization 397
Discussion 407
BOESTER, CARL F., Discussion on Response and Lag in the Control of Panel Heating Systems 172
BRADLEY, C. B., Discussion on the Effect of Floor Slab on Building Structure Temperatures and Heat Flow 396
BRANDT, ALLEN D., Discussion on Methods Used in Determining the Health Hazards Arising from the Inhalation of Various Chemicals 120
BRANDT, ALLEN D., RUSSELL J. STEFFY, and RICHARD G. HUEBSCHER, Nature of Air Flow at Suction Openings 55
Discussion 69
Building Structure Temperatures and Heat Flow, Effect of Floor Slab on, by CARL F. KAYAN 377
Discussion 396
BUTTOLPH, L. J., Discussion on Triethylene Glycol Vapor Distribution for Air Sterilization 407

C

CAPLAN, K. J., Discussion on Nature of Air Flow at Suction Openings 73
CARRIER, E. G., Discussion on Dehumidification Methods and Applications 99
CHAMBERS, F. W., Discussion on Response and Lag in the Control of Panel Heating Systems 171
Change in Environment, Physiological Adjustments of Human Beings to Sudden, by NATHANIEL GLICKMAN, TOHRU INOUYE, STANLEY E. TELSER, ROBERT W. KEETON, FORD K. HICK, and MAURICE K. FAHNESTOCK 327
Discussion 355
CHESTER, THOMAS, Discussion on A Method for Improving the Effective Temperature Index 314
Comfort, Conditions for, by CHARLES S. LEOPOLD 295
Discussion 304
Comfort Reactions of Workers During Occupancy of Air Conditioned Offices, by FRANK B. ROWLEY, RICHARD C. JORDAN, and WARREN E. SNYDER 357
Discussion 364
Committee on Arrangements (53rd Annual Meeting) 54
Committee on Research Annual Report, 1946 18
Conditions for Comfort, by CHARLES S. LEOPOLD 295
Discussion 304
CONSOLAZIO, WILLIAM V., and LOUIS J. PECORA, Minimal Replenishment Air Required for Living Spaces 127
Discussion 152
Control of Panel Heating Systems, Response and Lag in the, by F. W. HUTCHINSON 157
Discussion 171
Council and Officers, 1947 V
Council, Report of 6

D

DANIELSON, W. A., Discussion on Reponse and Lag in the Control of Panel Heating Systems 172
Dehumidification Equipment, Rating Dynamic, by ELMER R. QUEER and EDWARD R. McLAUGHLIN 101
Discussion 111
Dehumidification, Methods and Applications, by JOHN EVERETTS, JR. 91
Discussion 98
Determining and Reducing the Concentration of Air-Borne Micro-Organisms, by MATTHEW LUCKIESH and A. H. TAYLOR 191
Discussion 202
Diffusion of Odors in the Air, The Effects of Moisture Content on the, by RICHARD L. KUEHNER 77
Discussion 88
DUBOIS, E. F., M.D., Discussion on Physiological Adjustments of Human Beings to Sudden Change in Environment 355

E

Effect of Floor Slab on Building Structure Temperatures and Heat Flow, by CARL F. KAYAN 377
Discussion 396
Effective Temperature Index, A Method for Improving the, by C. P. YAGLOU 307
Discussion 313
The Effects of Moisture Content on the Diffusion of Odors in the Air, by RICHARD L. KUEHNER 77
Discussion 88
ENGELBACH, A. A., Discussion on Response and Lag in the Control of Panel Heating Systems 171
ESSIN, H., Discussion on Methods Used in Determining the Health Hazards Arising from the Inhalation of Various Chemicals 125

EVERETTS, JOHN, JR., Dehumidification Methods and Applications 91
Discussion 98
EVERETTS, JOHN, JR., Discussions on Effect of Floor Slab on Building Structure Temperatures and Heat Flow 396
Conditions for Comfort 305
Experimental Studies on Panel Heating Tube Spacing, by B. F. RABER and F. W. HUTCHINSON 369

F

FAHNESTOCK, MAURICE K., NATHANIEL GLICKMAN, TOHRU INOUYE, STANLEY E. TELSER, ROBERT W. KEETON, and FORD K. HICK, Physiological Adjustments of Human Beings to Sudden Change in Environment 327
Discussion 355
FIFTY-THIRD ANNUAL MEETING, 1947, (Cleveland, Ohio) 1
Flat Surfaces, Forced Convection Heat Transfer from, by GEORGE V. PARMELEE and RICHARD G. HUEBSCHER 245
FLEISHER, W. L., Discussions on Determining and Reducing the Concentration of Air-Borne Micro-Organisms 203
Dehumidification Methods and Applications 98
Effects of Moisture Content on the Diffusion of Odors in the Air 88
Method for Improving the Effecive Temperature Index, A 316
Forced Convection Heat Transfer from Flat Surfaces, by GEORGE V. PARMELEE and RICHARD G. HUEBSCHER 245

G

Gaseous Radiation in Panel Heating, Influence of, by F. W. HUTCHINSON 285
GLICKMAN, NATHANIEL, TOHRU INOUYE, STANLEY E. TELSER, ROBERT W. KEETON, FORD K. HICK, and MAURICE K. FAHNESTOCK, Physiological Adjustments of Human Beings to Sudden Change in Environment 327
Discussion 355
GRANT, W. A., Discussion on Conditions for Comfort 305

H

HARDY, J. D., Discussions on A Method for Improving the Effective Temperature Index 313
Physiological Adjustments of Human Beings to Sudden Change in Environment 355
HART, H. M., Discussion on Dehumidification Methods and Applications 99
Health Hazards Arising from the Inhalation of Various Chemicals, Methods Used in Determining the, by FRANCIS F. HEYROTH 113
Discussion 120
Heat Flow Calculations, The Thermal Properties of Building Materials Used in, by H. B. NOTTAGE 215
Heat Flow, Effect of Floor Slab on Building Structure Temperatures and, by CARL F. KAYAN 377
Discussion 396
Heating Systems, Proposed Design Procedure for Large Mechanical Warm Air, by S. KONZO, R. J. MARTIN, D. S. LEVINSON, and R. W. ROOSE 177
Discussion 190
HEYROTH FRANCIS F., M.D., Methods Used in Determining Health Hazards Arising from the Inhalation of Various Chemicals 113
Discussion 120
HICK, FORD K., M.D., MAURICE K. FAHNESTOCK, NATHANIEL GLICKMAN, TOHRU INOUYE, STANLEY E. TELSER, and ROBERT W. KEETON, M.D., Physiological Adjustments of Human Beings to Sudden Change in Environment 327
Discussion 355
HOLLADAY, W. L., Discussion on Triethylene Glycol Vapor Distribution for Air Sterilization 409

HUEBSCHER, RICHARD G., and GEORGE V. PARMELEE, Forced Convection Heat Transfer from Flat Surfaces 245
HUEBSCHER, RICHARD G., ALLEN D. BRANDT, and RUSSELL J. STEFFY, Nature of Air Flow at Suction Openings 55
Discussion 69
HUTCHINSON, F. W., and B. F. RABER, Experimental Studies on Panel Heating Tube Spacing 369
HUTCHINSON, F. W., Influence of Gaseous Radiation in Panel Heating 285
HUTCHINSON, F. W., Response and Lag in the Control of Panel Heating Systems 157
Discussion 171

I

Influence of Gaseous Radiation in Panel Heating, by F. W. HUTCHINSON 285
Inhalation of Various Chemicals, Methods Used in Determining the Health Hazards Arising from the, by FRANCIS F. HEYROTH, M.D. 113
Discussion 120
In Memoriam, 1947 411
Index 413
INOUYE, TOHRU, NATHANIEL GLICKMAN, STANLEY E. TELSER, M.D., ROBERT W. KEETON, M.D., FORD K. HICK, M.D., and MAURICE K. FAHNESTOCK, Physiological Adjustments of Human Beings to Sudden Change in Environment 327
Discussion 355

J

JEHLE, FERDINAND, Discussion on Response and Lag in the Control of Panel Heating Systems 173
JENNINGS, B. H., EDWARD BIGG, M.D., and F. C. W. OLSON, Triethylene Glycol Vapor Distribution for Air Sterilization 397
Discussion 407
JORDAN, RICHARD C., FRANK B. ROWLEY, and WARREN E. SNYDER, Comfort Reactions of Workers During Occupancy of Air Conditioned Offices 357
Discussion 364

K

KAYAN, CARL F., Effect of Floor Slab on Building Structure Temperatures and Heat Flow 377
Discussion 396
KEETON, ROBERT W., M.D., FORD K. HICK, M.D., MAURICE K. FAHNESTOCK, NATHANIEL GLICKMAN, TOHRU INOUYE, STANLEY E. TELSER, M.D., Physiological Adjustments of Human Beings to Sudden Change in Environment 327
Discussion 355
KEETON, R. W., M.D., Discussion on A Method for Improving the Effective Temperature Index 322
KLIEFOTH, M. H., Discussion on Determining and Reducing the Concentration of Air-Borne Micro-Organisms 204
KONZO, S., R. J. MARTIN, D. S. LEVINSON, and R. W. ROOSE, Proposed Design Procedure for Large Mechanical Warm Air Heating Systems 177
Discussion 190
KONZO, S., Discussion on Determining and Reducing the Concentration of Air-Borne Micro-Organisms 204
KUEHNER, RICHARD L., The Effects of Moisture Content on the Diffusion of Odors in the Air 77
Discussion 88
KUEHNER, R. L., Discussion on Determining and Reducing the Concentration of Air-Borne Micro-Organisms 204

L

LEE, DOUGLAS H. K., Discussion on A Method for Improving the Effective Temperature Index 314

LEOPOLD, C. S., Conditions for Comfort 295
Discussion 304
LEOPOLD, C. S., Discussions on Comfort Reactions of Workers During Occupancy of Air Conditioned Offices 365
Minimal Replenishment Air Required for Living Spaces 153
The Effects of Moisture Content on the Diffusion of Odors in the Air 89
LEVINSON, D. S., S. KONZO, R. J. MARTIN, and R. W. ROOSE, Proposed Design Procedure for Large Mechanical Warm Air Heating Systems 177
Discussion 190
Local Chapter Officers, 1947 IX
LUCKIESH, MATTHEW and A. H. TAYLOR, Determining and Reducing the Concentration of Air-Borne Micro-Organisms 191
Discussion 202

M

MACHLE, WILLARD, M.D., Discussions on Methods Used in Determining the Health Hazards Arising from the Inhalation of Various Chemicals 121
Minimal Replenishment Air Required for Living Spaces 154
MARSCHALL, P. J., Discussion on Rating Dynamic Dehumidification Equipment 111
MARTIN, R. J., S. KONZO, D. S. LEVINSON and R. W. ROOSE, Proposed Design Procedure for Large Mechanical Warm Air Heating Systems 177
Discussion 190
MCCONNELL, W. J., Discussion on A Method of Improving the Effective Temperature Index 313
MCGRATH, W. L., Discussion on Response and Lag in the Control of Panel Heating Systems 173
MCINTOSH, F. C., Discussion on A Method for Improving the Effective Temperature Index 316
Comfort Reactions of Workers During Occupancy of Air Conditioned Offices.. 364
MCLAUGHLIN, EDWARD R. and ELMER R. QUEER, Rating Dynamic Dehumidification Equipment 101
Discussion 111
Method for Improving the Effective Temperature Index, A, by C. P. YAGLOU 307
Discussion 313
Methods Used in Determining the Health Hazards Arising from the Inhalation of Various Chemicals, by FRANCIS F. HEYROTH, M.D. 113
Discussion 120
Micro-Organisms, Determining and Reducing the Concentration of Air-Borne, by MATTHEW LUCKIESH and A. H. TAYLOR 191
Discussion 202
Minimal Replenishment Air Required for Living Spaces, by WILLIAM V. CONSOLAZIO and LOUIS J. PECORA 127
Discussion 152
MISSENARD ANDRÉ, Discussion on A Method Improving the Effective Temperature Index 323
MORRISON, W. BRUCE, Discussion on Response and Lag in the Control of Panel Heating Systems 175
MURPHY, H. C., Discussion on Triethylene Glycol Vapor Distribution for Air Sterilization 409

N

Nature of Air Flow at Suction Openings, by ALLEN D. BRANDT, RUSSELL J. STEFFY and RICHARD G. HUEBSCHER 55
Discussion 69
NOTTAGE, H. B., Discussion on Proposed Design Procedure for Large Mechanical Warm Air Heating Systems 190
NOTTAGE, H. B., The Thermal Properties of Building Materials Used in Heat Flow Calculations 215

O

Odors in the Air, The Effects of Moisture Content on the Diffusion of, by RICHARD L. KUEHNER 77
Discussion 88
Officers and Council, 1947 V
Officers of Local Chapters, 1947 IX
OLSON, F. C. W., EDWARD BIGG, M.D., and B. H. JENNINGS, Triethylene Glycol Vapor Distribution for Air Sterilization 397
Discussion 407

P

Panel Heating, Influence of Gaseous Radiation in, by F. W. HUTCHINSON 285
Panel Heating Systems, Reponse and Lag in the Control of, by F. W. HUTCHINSON 157
Discussion 171
Panel Heating Tube Spacing, Experimental Studies on, by B. F. RABER and F. W. HUTCHINSON 369
PARMELEE, GEORGE V., and RICHARD G. HUEBSCHER, Forced Convection Heat Transfer from Flat Surfaces 245
Participation in 1946 Research Program 29
PECORA, LOUIS J. and WILLIAM V. CONSOLAZIO, Minimal Replenishment Air Required for Living Spaces 127
Discussion 152
Physiological Adjustments of Human Beings to Sudden Change in Environment, by NATHANIEL GLICKMAN, TOHRU INOUYE, STANLEY E. TELSER, M.D., ROBERT W. KEETON, M.D., FORD K. HICK, M.D., and MAURICE K. FAHNESTOCK 327
Discussion 355
POOLE, RALPH, Discussion on Nature of Air Flow at Suction Openings 71
POST, G. A., Discussion on Minimal Replenishment Air Required for Living Spaces 155
President's Report (BALDWIN M. WOODS) 5
Program 53rd Annual Meeting, 1947, (Cleveland, Ohio) 52
Program Semi-Annual Meeting, 1947, (Coronado, Calif.) 209
Proposed Amendments to **Article V,** *Section 6* and **Article VI,** *Section 1 and 2* 30
Proposed Design Procedure for Large Mechanical Warm Air Heating Systems, by S. KONZO, R. J. MARTIN, D. S. LEVINSON, and R. W. ROOSE 177
Discussion 190

Q

QUEER, ELMER R., and EDWARD R. MCLAUGHLIN, Rating Dynamic Dehumidification Equipment 101
Discussion 111

R

RABER, B. F., and F. W. HUTCHINSON, Experimental Studies on Panel Heating Tube Spacing 369
Rating Dynamic Dehumidification Equipment, by ELMER R. QUEER and EDWARD R. MCLAUGHLIN 101
Discussion 111
Reducing the Concentration of Air-Borne Micro-Organisms, Determining and, by MATTHEW LUCKIESH and A. H. TAYLOR 191
Discussion 202
Report of Director of Research (CYRIL TASKER) 19
Resolutions (53rd Annual Meeting) 50
Response and Lag in the Control of Panel Heating Systems, by F. W. HUTCHINSON 157
Discussion 171

ROBINSON, KENNETH E., Discussion on A Method for Improving the Effective Temperature Index 319
ROOSE, R. W., S. KONZO, R. J. MARTIN and D. S. LEVINSON, Proposed Design Procedure for Large Mechanical Warm Air Heating Systems..... 177
Discussion 190
